FRONT END DEVELOPER

With several years of industry experience, I am a skilled Front End Developer dedicated to building and optimizing user-focused websites for continuous improvement and deployment. I specialize in creating responsive, scalable web applications using a variety of technologies including HTML, CSS, JavaScript, and modern frameworks like React. My achievements include successful project launches, consistent performance optimizations, and collaborative work with cross-functional teams to deliver innovative solutions.

SKILLS

HTML
CSS
Javascript
MUI

React JS
Next JS
Node JS
Tailwind

Firebase
Express JS

PROFESSIONAL EXPERIENCE

Vericast

July 2022 - Present

Front end developer

Key Responsibilities:

- Develop new user-facing features with a focus on responsive solutions.
- Collaborate with the design team to translate visual concepts into functional online experiences.
- Ensure the technical feasibility of UI/UX designs.
- Optimize application for maximum speed and scalability.
- Assure that all user input is validated before submitting to the back-end.
- Maintain and improve the website.
- Participate in code reviews and team meetings.
- Stay up-to-date on emerging technologies and industry trends.

BleuCRM

April 2021 - May 2022

Front end developer

Key Responsibilities:

- Developed an E-commerce platform from scratch, leveraging modern technologies and libraries including MUI, Bootstrap, Moment, and Styled Components.
- Utilized React Framework for building the application, incorporating Cypress for end-to-end testing.
- Adopted a Single Page Application (SPA) approach using React Router Dom for seamless page transitions.
- Collaborated with an agile team to successfully migrate the legacy company website to a modern stack comprising React, Vue.js, Sass, HTML5, and WordPress.
- Translated design team's UX wireframes and mockups into responsive, interactive features using HTML/CSS and JavaScript.
- Recommended and advocated for the integration of new technologies to align with business goals and improve functionality.

ClientStrive**July 2019 - April 2021****Front end developer****Key Responsibilities:**

- Collaborated with an agile team to migrate the legacy company website to modern technologies including React, Vue.js, Sass, HTML5, and WordPress.
- Translated design team's UX wireframes and mockups into responsive, interactive features using HTML/CSS and JavaScript.
- Designed and developed GUI for applications and modules using JavaScript.
- Researched emerging web technologies and trends for potential integration into the company's sites.
- Enhanced tools to improve user interaction and provide versatile design options.

AgilePro CRM**Front end developer****June 2017 - May 2019****Key Responsibilities:**

- Engaged in the development, refactoring, optimization, and maintenance of projects using Vue and React frameworks.
- Handled data fetching and interaction with REST APIs and JSON for dynamic content updates and functionality.
- Spearheaded the development of a platform from scratch, incorporating features like registration, statistics, an admin panel, video broadcasting, and real-time contract signing.
- Managed application states efficiently using React Hooks for streamlined and responsive user experiences.
